

Please Get Comfortable Washing Your Hands and Asking Others to Wash Theirs

We ask that you wash your hands:

1. After handling money and before handling food.
2. After you cough into your hand.
3. After touching your face.

We welcome many people with special concerns about their immune systems. We encourage you to help us maintain the standards about hand washing.

Please stay home if you're coughing.

Please do cough into your shoulder.

Please feel free to touch elbows instead of holding hands during the opening and closing.
